Open Market

ADVANCED ADDITIVE ADVANTAGES

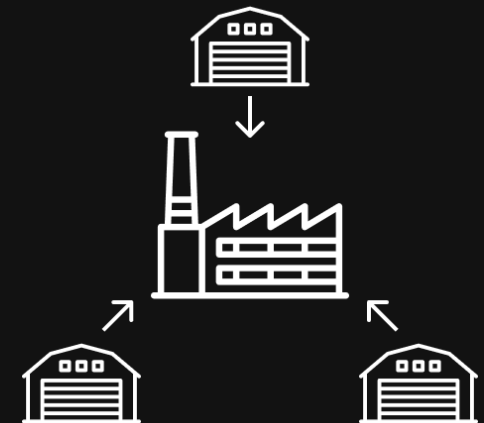

Rapid Prototyping

Agile Manufacturing

Supply Chain Integrity

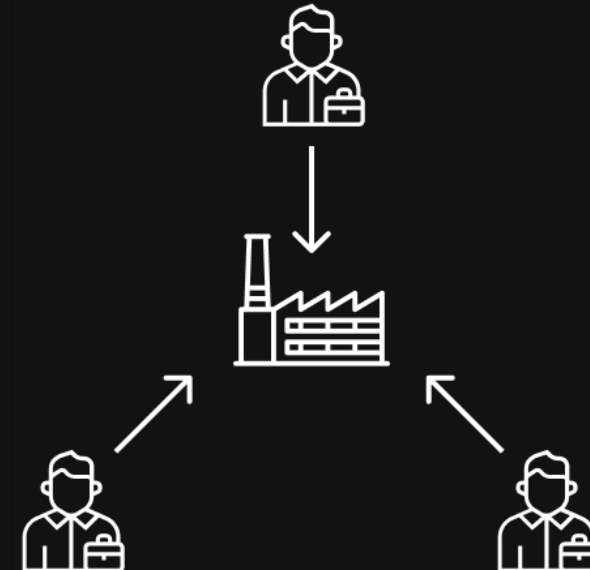

OPEN vs CLOSED MATERIALS 3D PRINTERS

Closed Materials

Open Materials

3D PRINTING VALVES FOR BIPAP VENTILATORS

*“Your average 3D printer can’t
handle this.”*

- Brian Gillette, Research Scientist & Assistant
Professor – NYU Langone Winthrop Hospital &
NYU Long Island School of Medicine

3D PRINTING FACE SHIELDS

THE NEW KEYSTONE OF AGILE MANUFACTURING

“The dynamic capacity to solve challenges and innovate effective solutions in a five-day time frame was nothing short of an inspiration.”

- Dr. Avinash Sinha, Anesthesiologist – McGill University Health Centre
